Contents of Volume 4

NUMBER 1 FEBRUARY 1977

REVIEW PAPER: **Environmental Applications of Mass Spectrometry** *1*
A. ALFORD

Use of New Silylating Agents for Identification of Hydroxylated Steroids by Gas Chromatography and Gas Chromatography Mass Spectrometry *23*
H. MIYAZAKI, M. ISHIBASHI, M. ITOH AND T. NAMBARA

Single and Multiple Ion Recording Techniques for the Analysis of Diphenylhydantoin and its Major Metabolite in Plasma *36*
J. D. BATY AND P. R. ROBINSON

Determination of Phenylbutazone, Tolbutamide and Metabolites in Plasma and Urine using Chemical Ionization Mass Spectrometry *42*
R. J. WEINKAM, M. ROWLAND AND P. MEFFIN

Mass Spectrometry of Cyclopenta[*a*]phenanthrenes. Metabolites formed *in vitro* and *in vivo* from the Carcinogen 15,16-Dihydro-11-methylcyclopenta[*a*]phenanthren-17-one *48*
C. VOSE AND M. COOMBS

Novel Inexpensive Device for the Electrochemical Generation of Metallic Emitters for Desorption *52*
C. E. RECHSTEINER JR, D. E. MATHIS, M. M. BURSEY AND R. P. BUCK

An Emission-controlled Field Desorption and Electron Impact Spectrometry Study of some *N*-Substituted Propane and Butane Sultams *55*
H.-R. SCHULTEN AND N. M. M. NIBBERING

Short Communication

Some Simple Modifications to the LKB 9000S to Achieve Improved Selected Ion Monitoring and Repetitive Scanning Performance *62*
G. S. KING, D. TALBERT AND J. MANGEZ

Letter to the Editors

Historical Account of Ion Monitoring *67*
F. C. FALKNER

Book Review

Eight Peak Index of Mass Spectra, Compilation of Mass Spectral Data and Registry of Mass Spectral Data *68*
Reviewed by G. W. A. MILNE

NUMBER 2 APRIL 1977

Identification of Dihydrothiazoles in Urine of Male Mice *69*
H. M. LIEBICH, A. ZLATKIS, W. BERTSCH, R. VAN DAHM AND W. K. WHITTEN

Amobarbital Metabolism in Man. Determination of *N*-Hydroxyamobarbital and 3′-Hydroxyamobarbital in Urine by Gas Chromatography Chemical Ionization Mass Spectrometry *73*
B. K. TANG, T. INABA AND W. KALOW

Structural Analysis by Mass Spectrometry of the Major Mammalian Retinal Ganglioside, A Sialyl-Sialyl-Dihexosyl-Ceramide *77*
M. HOLM, I. PASCHER AND B. E. SAMUELSSON

Precise Measurement of Total Body Water Using Trace Quantities of Deuterium Oxide *82*
D. HALLIDAY AND A. G. MILLER

Cyclic Alkylboronates as Derivatives for the Characterization of Cannabinolic Acids by Combined Gas Chromatography and Mass Spectrometry *88*
D. J. HARVEY

The Measurement of Propantheline Ion in Biological Fluids after Administering Propantheline Bromide to Man *94*
G. C. FORD, S. J. W. GRIGSON, N. J. HASKINS, R. F. PALMER, M. PROUT AND C. W. VOSE

A Comparison between $^{14}CO_2$ and $^{13}CO_2$ Measurements in the Respired Breath of Rats Fed Sodium Acetate *98*
R. S. AMPULSKI AND R. W. BOGGS

Field Ionization Mass Spectrometry: I–Field Desorption Spectra of Nucleotides–Experimental Problems *103*
H. BUDZIKIEWICZ AND M. LINSCHEID

Studies on Trimethylsilyl Derivatives of 1-Alk-1-enyl-2-acyl Glycerols by Gas-Liquid Chromatography Mass Spectrometry *107*
K. SATOUCHI AND K. SAITO

Determination of Mass Spectrometric Sensitivity of Different Metalloporphyrin Esters Relating to Porphyrin Ester *113*
E. LARSEN, H. EGSGAARD, J. MØLLER AND T. K. WITH

Quantitative Determination of Enantiomeric Compounds: I–Simultaneous Measurement of the Optical Isomers of Amphetamine in Human Plasma and Saliva using Chemical Ionization Mass Spectrometry *118*
S. B. MATIN, S. H. WAN AND J. B. KNIGHT

Variance Analysis of Error in Selected Ion Monitoring Assays using Various Internal standards. A Practical Study case *122*
W. MAENHAUT, S. P. MARKEY AND M. CLAEYS

NUMBER 3 JUNE 1977

Structure and Fragmentation Mechanisms of some Ions in the Mass Spectrum of Ephedrine *129*
T. L. BARRY AND G. PETZINGER

Mass Spectrometry of *Alternaria mali* Toxins and Related Cyclodepsipeptides *134*
T. UENO, T. NAKASHIMA, M. UEMOTO, H. FUKAMI, S.-N. LEE AND N. IZUMIYA

The Electron Impact Induced Fragmentation of *Aspergillus amstelodami* Alkaloids and Derivatives *143*
A. SELVA AND P. TRALDI

Gas Chromatography Mass Spectrometry Analysis of Polyamines using Deuterated Analogs as Internal Standards *146*
R. G. SMITH AND G. DOYLE DAVES JR

Sample Derivatization and Structure Analysis by Field Desorption Mass Spectrometry. Peptide Methylation–Methanolysis *152*
W. FRICK, G. DOYLE DAVES JR, D. F. BAROFSKY, E. BAROFSKY, G. H. FISHER, D. CHANG AND K. FOLKERS

Location of Functional Groups in Antipyrine Metabolites by Mass Spectrometry *155*
E. ZIETZ AND G. SPITELLER

Peptide Sequencing: The Utility of Chemical Ionization Mass Spectrometry *159*
M. MUDGETT, D. V. BOWEN, F. H. FIELD AND T. J. KINDT

High Performance Liquid Chromatographic and Mass Spectrometric Identification of Dimethylxanthine Metabolites of Caffeine in Human Plasma *172*
K. K. MIDHA, S. SVED, R. D. HOSSIE AND I. J. MCGILVERAY

Rapid and Quantitative Blood Amino Acid Analysis by Chemical Ionization Mass Spectrometry *178*
J. M. L. MEE, J. KORTH, B. HALPERN AND L. B. JAMES

Source Identification of Urban Airborne Polycyclic Aromatic Hydrocarbons by Gas Chromatographic Mass Spectrometry and High Resolution Mass Spectrometry *182*
M. L. LEE, G. P. PRADO, J. B. HOWARD AND R. A. HITES

Limitations of Diazomethane for the Quantification of 15-Oxo-prostaglandin $F_{2\alpha}$ *187*
A. F. COCKERILL, N. J. A. GUTTERIDGE, D. N. B. MALLEN, D. J. OSBORNE AND D. M. RACKHAM

Synthesis and Characterization of Glucuronides of Cannabinol, Cannabidiol, Δ^9-Tetrahydrocannabinol and Δ^8-Tetrahydrocannabinol *190*
M. A. LYLE, S. PALLANTE, K. HEAD AND C. FENSELAU

NUMBER 4 AUGUST 1977

Quinoxalinol Derivatives of Aliphatic 2-Oxocarboxylic Acids: Infrared and Mass Spectra of the *O*-Trimethylsilylated Compounds *197*
U. LANGENBECK, H.-U. MÖHRING, B. HINNEY AND M. SPITELLER

MASSFORM: A Computer Program for the Assignment of Elemental Compositions to High Resolution Mass Spectral Data *203*
A. L. ROBERTSON AND M. C. HAMMING

Mass Spectrometric Characterization of Activated *N*-(2-Chloroethyl)amido Oxazaphosphorine Derivatives *209*
M. PRZYBYLSKI, H. RINGSDORF, U. LENSSEN, G. PETER, G. VOELCKER, T. WAGNER AND H. J. HOHORST

Location of Functional Groups with the Aid of Mass Spectrometry: XVI—The Mass Spectra of Trimethylsilylated Androstan-3,16,17β-triols *216*
H. GROTE AND G. SPITELLER

Mass Spectrometric Studies of Twenty-One Metabolically Important Acylglycines *220*
H. S. RAMSDELL, B. H. BARETZ AND K. TANAKA

Characterization of Diastereomeric and Enantiomeric Ephedrines by Gas Chromatography Combined with Electron Impact Mass Spectrometry and Isobutane Chemical Ionization Mass Spectrometry *226*
M. T. GILBERT AND C. J. W. BROOKS

Mass Spectrometric and Nuclear Magnetic Resonance Confirmation of a 3,3-Spirocyclic Indole Derivative formed from Melatonin and Related Acyl Tryptamines *232*
K. BLAU, G. S. KING AND M. SANDLER

Mass Spectrometric Determination of New Prostaglandin Derivatives (Series A and E) *237*
J. ROSELLÓ, C. SUÑOL, J. M. TUSELL AND E. GELPI

Analysis of Drugs by Pyrolysis: I—Selected Ion Monitoring Combined with a Pyrolysis Method for the Determination of Carpronium Chloride in Biological Samples *241*
K. OHYO AND M. SANO

The Gas Chromatography Mass Spectrometry of the Major Metabolites of Flurazepam *248*
A. J. CLATWORTHY, L. V. JONES AND M. J. WHITEHOUSE

The Measurement of Acetanilide in Plasma by Spectrophometric and Selected Ion Monitoring Methods *255*
J. D. BATY, J. PLAYFER, D. A. PRICE EVANS AND J. LAMB

Gas Chromatography Chemical Ionization Mass Spectrometry of Prostaglandin F_α Cyclic Boronate Derivative *258*
A. G. SMITH AND C. J. W. BROOKS

Allyldimethylsilyl Ethers as Derivatives for the Characterization of Steroids and Cannabinoids by Combined Gas Chromatography and Mass Spectrometry *265*
D. J. HARVEY

Hydantoin Ring Glucuronidation: Characterization of a New Metabolite of 5,5-Diphenylhydantoin in Man and the Rat *275*
R. G. SMITH, G. DOYLE DAVES JR, R. K. LYNN AND N. GERBER

NUMBER 5 OCTOBER 1977

Analysis of Hexosaminitol-containing Disaccharide Alditols from Rat Brain Glycoproteins and Gangliosides as *O*-Trimethylsilyl Derivatives by Gas Chromotography Mass Spectrometry *281*
J. FINNE, I. MONONEN AND J. KÄRKKÄINEN

Phosphazenes: High Molecular Weight Reference Compounds for Field Desorption Mass Spectrometry *284*
K. L. OLSON, K. L. RINEHART JR AND J. CARTER COOK JR.

Preclinical Toxicological Study of Phosphonoacetic Acid: Determination in Blood by Selected Ion Monitoring *291*
J. ROBOZ, R. SUZUKI, G. BEKESI AND R. HUNT

Metabolism of DL-[^{14}C]Prenylamine in Man *297*
G. REMBERG, M. EICHELBAUM, G. SPITELLER AND H. J. DENGLER

The Mass Spectra of 8-Azapurines *305*
S. N. BOSE, R. H. J. DAVIES AND D. R. BOYD

Identification of Hydroxyhalobiphenyls as their Methyl Ethers by Gas Chromatography Mass Spectrometry *310*
M.-Th. M. TULP, K. OLIE AND O. HUTZINGER

Gas Chromatography Mass Spectrometry Assay for Ketamine and its Metabolites in Plasma *317*
S. S. LAU AND E. F. DOMINO

Determination of Bupivacaine in Human Fetal and Neonatal Blood Samples by Quantitative Single Ion Monitoring *322*
J. CALDWELL, J. R. MOFFATT, R. L. SMITH, B. A. LIEBERMAN, R. W. BEARD, W. SNEDDEN AND B. W. WILSON

Studies on Molecular Species of Fetal Lung Lecithins by Gas-liquid Chromatography Mass Spectrometry *326*
H. OGINO, T. MATSUMURA, K. SATOUCHI AND K. SAITO

NUMBER 6 DECEMBER 1977

Characterization and Mass Spectral Analysis of some Grayanotoxin Derivatives *331*
F. H. JAWAD, A. D. KINGHORN, N. J. DOORENBOS AND S. BILLETS

The Saturated Methyl Branched Fatty Acids of Adult Human Skin Surface Lipid *337*
N. NICOLAIDES AND J. M. B. APON

Mass Spectra of some Specifically Deuterated Tryptamines *348*
G. J. SHAW, G. J. WRIGHT AND G. W. A. MILNE

Ring-D Fragmentation of Cardenolides *354*
E. FLASKAMP AND H. BUDZIKIEWICZ

Mass Spectral Characterization of 6-Oxo-PGF$_{1\alpha}$ *358*
A. F. COCKERILL, D. N. B. MALLEN, D. J. OSBORNE, J. R. BOOT AND W. DAWSON

***In vivo* Metabolism of Cannabinol by the Mouse and Rat and a Comparison with the Metabolism of Δ^1-Tetrahydrocannabinol and Cannabidiol** *364*
D. J. HARVEY, B. R. MARTIN AND W. D. M. PATON

Application of Deuterium Labelling Mass Spectrometry in a Study of the Metabolism of the Enantiomers of Cyclophosphamide *371*
P. J. COX, P. B. FARMER, A. B. FOSTER, L. J. GRIGGS, M. JARMAN, R. KINAS, K. PANKIEWICZ AND W. J. STEC

The Mass Spectral Fragmentation of 9α-Hydroxy Steroids and Related Compounds *376*
G. HORVÁTH AND G. AMBRUS

Evidence for the Lack of a Carrier Effect in the Solvent Extraction and Determination of Octopamine by Gas Chromatography Mass Spectrometry *381*
B. J. MILLARD, P. A. TIPPETT, M. W. COUCH AND C. M. WILLIAMS
